NUMBER 50

## Town Council In Regular Session

The City Dads met in two sessions on Monday and Wednesday evenings to finish up the accumulated business of the past month. Mayor Cope and all Councilmen and Secretary W. L. Jones were present. The Elevator Companies had a representative present appealing against the assessment on their properties. After a consideration of the matter the Council decided the assessment was not out of proportion with other similar property and decided to let it stand.

A motion was passed that the Town buy the steam heating plant of the Sugar Factory purchased, but found to be too small for the Opera House, and that it be used for heating the Town Hall and the proposed new Library building when the latter is built.

A motion was passed that a by-law be drafted setting up a Town Planning Commission for Raymond, in keeping with the recommendation of the Rotary Club's Community Service Committee, and that the Committee consist of six, two appointed by the Town Council, two by the Board of Trade, and one each from the Lions and the Rotary Club. When action is taken on this proposal the necessary by-law will be drafted.

Four new fire hydrants are ordered and when they arrive will be placed at some necessary points within the Town.

All homes, to which the Town holds title, will be rented to the occupants, whether the past owners or not, and the rents will be payable each month to the Town. Owners of property in this category will be given a last opportunity to make arrangements for its redemption if they act at once.

The revenue from the sale of Cemetery lots, and also from the rented land belonging to the cemetery, will be turned over annually to the Cemetery Board to assist in their program of beautification and improvement.

A grant of \$10.00 was voted to the Canadian Institute for the Blind, and the month's payroll was passed and ordered paid.

Miss Edna Jacques, Canadian author and poetess entertained a fair-sized crowd at the 2nd Ward Monday evening with a recital of prose and poetry, and told the circumstances connected with the numbers she presented. The busy season of the year kept many from attending.

## C.W.A.C. Recruiting

A mobile recruiting unit of forty other trades in which the Canadian Women's Army Corps leaves Calgary on April 19th to spend a fortnight in south-western Alberta. The party will be composed of 2 Lieut. F. Lucile Innes and Pte. Vera Shirley, of the CWAC recruiting staff, and the CWAC driver of the transport.

They spend several days going to Lethbridge via Blackie and Vulcan, and after a trip further south to the Larder, to Coultas, they return to Calgary by Claresholm and High River. They also take a side trip to Plainville and Coleman.

Particularly required at the present time are cooks, provosts, stenographers and accountants, or girls who can be trained for these trades. There are

## 50TH ANNIVERSARY OF SALT LAKE CITY TEMPLE DEDICATION

Last Sunday night, through out the L.D.S. Church, services were held commemorating the 50th Anniversary of the dedication of the Salt Lake Temple. The ward Genealogical committees had charge of the programs.

The 2nd ward program was as follows:

Opening exercises and sacrament under the direction of the Bishopric.

"We Want to See the Temple" sung by a group of girls directed by Marie Strong.

Talk on the Salt Lake Temple dedication by J. W. Evans, who dealt with the difficulties of construction, especially of hauling the huge stones from Little Cottonwood Canyon, a distance of more than 20 miles to Salt Lake City. Also the interruptions in building, especially when Johnston's Army came to the valley.

A talk on the blessing to be obtained through Temple attendance by A. E. Hancock.

Hugh Laycock of Lethbridge was present and rendered two violin solos which were much appreciated.

D. C. Robeck, Genealogical Chairman had charge of this part of the program.

In the First Ward the opening exercises were in charge of the Bishopric, after which C. A. Hudson, Genealogical Chairman took charge and a similar program presented, the speakers being Elders T. T. Mendenhall and Golden Snow. Musical numbers were a class song by one of the groups, a vocal duet by Mesdames Muriel Terry and Eleanor Hudson and a piano solo by Miss Margaret Wing.

Good crowds were present in each ward to enjoy this memorial service.

Lyle Lybbert is home on leave for a few days and is looking fine.

Mr. and Mrs. Jack Melrew have received a cable that Billie has arrived safely in England.

H. C. Oppell of the Mechanic Sales Ltd., Lethbridge, was a Raymond visitor Wednesday this week.

Geo. Terry who has been quite ill for the past two weeks is recovering now and will soon be able to be about his work again.

## Mrs. H. A. Jones Laid to Rest

Mrs. Henry A. Jones, just past 70 years, passed away Sunday at 1 p.m., and funeral services were held Wednesday afternoon at 2 p.m. in the 2nd Ward Chapel with Bishop L. L. Palmer in charge. A large audience was present to show their respect to the husband and children of deceased who had lived for almost forty years in Raymond.

The opening song was "Some time We'll Understand" with invocation by Elder John F. Salmon, followed by "Oh My Father" by the Choir.

Elder J. W. Evans was the first speaker and paid a fine tribute to deceased, and her husband, both of whom had accepted the Gospel in England and had moved to Utah in the earlier days of that state, and then in 1899 had moved to Mountain View, and in 1901 to Raymond, almost before it started. She was the mother of ten children, six boys and four girls, nine of whom are still living.

Mrs. Jones was a woman of great faith, and although she had been a sufferer for many years she never complained and was always ready to serve her family and her church. The understanding which deceased had of death and her family had of death

and the resurrection made the parting less painful and the hope of the resurrection much sweeter.

Jos. McLean sang the solo "I'm a Pilgrim".

Elder Jas. S. Anderson was the next speaker and praised the life of deceased who had always lived a good clean life, been a loving wife and mother a fine example and a friend to everyone. Such as these have no fear of death, and when they depart this life they go "back home" to the Father who gave them life. He preached a fine sermon of life, death and the resurrection, and urged the members of the family present to emulate the example of their loving mother.

Bishop Palmer in a few closing remarks added his tribute to the other speakers on the life of deceased, and on behalf of the family thanked all who had assisted in any way during the sickness and death of wife and mother.

The closing song was "Resting Now from Care and Sorrow" and the benediction was pronounced by Elder Heber F. Allen of the Stake Presidency.

A large cortege accompanied the remains to the cemetery where interment was made in the family plot there, Christensen Bros in charge.

## Regional Conference Sunday

Elders Joseph F. Merrill, Clifford Young and John H. Taylor will be in Cardston Sunday representing the General authorities at a Regional Conference to be held there of the L.D.S. Church.

Those invited to this Conference, which is introducing a new program in the Church, are Stake Presidencies & High Councilmen; Stake Clerks; Patriarchs Bishoprics of Wards; Ward Clerks; representatives of the Priest's Quorums; Presidencies of Teachers and Deacons quorums and all Ward Teachers. Efforts are being made to arrange transportation so that all delegates from this Stake may be able to get to the Conference. The three Canadian Stakes are included in this region.

## Fire Soon Under Control

Fire from a gasoline explosion started in Hawkins, Service Station at about 9 a.m. Saturday morning last, and was out in about twenty minutes.

Poley and Glen were working on Mr. Purdy's car when the gasoline exploded. Glen had his hands and face burned and his hair singed and Poley who was the lynch at the time had his eyebrows and lashes singed. The paint on the body of the car was burned quite badly and one tire was about ruined.

Aside from this most of the damage was from the smoke. It was fortunate that the building was of fireproof construction.

Stocks were removed in short order, and the fire engine, equipped with a fog nozzle which had been received only a little while ago and was ideal for this sort of fire, was soon laying on the blaze and had it completely smothered.

## Farming Gets Under Way

Spring work is getting under way, although not very much has been done to date. Gardens are being plowed in some parts of town, and surface work in fields such as harrowing and cultivating is going on to some extent, but mostly fields, especially in the district south of town, towards the ridge are too wet for any field work at all.

Beet land has been worked some, and Evans Bros. were the first ones we heard of to plant beets for this season, some being seeded by them last Thursday, April 8th. The rain Friday and Saturday held up operations until Tuesday morning again.

With the frost coming out of the ground streets are getting spongy and several loaded trucks have broken through the crust and have had to be pulled out and then be pulled out with tractors. One dropped through Broadway just a little north of the Capitol Theatre with a load of wheat and was stalled for quite a little while until it could be pulled out. When loads go over the roads you can see them spring up and down as the water underneath is displaced with the weight of the load. The maintainer has been busy smoothing the streets down and making them passable in most sections of the town.

## Municipal Council In Monthly Meeting

### CHEESE FACTORY DIRECTORS MEET

The directors of the local Cheese Factory met in regular meeting last Thursday evening, the meeting having been postponed for a week.

The affairs of the Company for the first three months of 1943 were reported and showed a steady progress in milk receipts, which was gratifying indeed. The feed department had not been too well patronized, but it was hoped that a larger volume of business would be done here in the future. A few locker boxes remain unsold, but with warmer weather coming it is hoped that all remaining locker storage space will be taken up.

The egg grading business was growing all the time, and it was impossible now for one person to keep up with the grading, and help was being arranged for that could be brought in when needed.

A drive for sale of shares is to be put on soon to finish up this and give the Company a working capital. The directors all felt that the progress of the Corporation to date was very satisfactory.

### W. I. MEETING

The regular meeting of the W. I. was held at the home of Mrs. Zobel on April 8th, with President Mrs. Lamb, presiding. After singing "O Canada" and giving the flag salute, all joined in repeating the creed.

Roll call was answered by 18 members, each responding with a gardening hint. Minutes of the last month's meeting were read and approved. The committee appointed to meet with the school board, will meet on the 12th, and all members interested are invited to attend.

It was decided to fill another Ditty Bag at the May meeting, to be held at the home of Mrs. Lamb.

Mrs. Turner, chairman of the program committee, reported a Sadie Hawkins Dance, for married folks, would be held on Friday the 16th. A prize will be given for the best costume.

Barbara Turner gave the first number on the musical program, a piano solo entitled "Chansons".

Mrs. J. Miller's paper, "Fruit Growing in Alberta," proved very interesting and instructive. And, the Canadian Industries' and Mrs. Selman served luncheon.

## Vaughn Taylor at Rotary

Sergt. Major V. B. Taylor addressed the Rotary Club Monday evening and gave a very interesting talk on some of his experiences. His convoy cross ing was uneventful and they arrived in Scotland, and were then taken to England and billeted at Aldershot, a camp known to most of the veterans of World War 1. Vaughn told some amusing experiences in and around London, especially when they tried to find a certain place and circled the same block and asked the same policeman three times how to find their destination.

He spoke of his work in artillery practice and said their hikes and manoeuvres were made as real as possible and it was not unusual for the men to be on a 48 hour route march and be wet all the time. He experienced some of the heavy bombing of London and assist ed in fighting fires and rescue work during some of the weeks of the blitz. He answered a number of questions, and the ones present and a very interesting and instructive hour.

### NEWS NOTES

Miss Nova O'Brien stationed at Claresholm in the Air Force Telephone Office was home on leave a few days the first of this week.

Chas. B. Strong and daughter Dorothy moved into their new home between A.W. Jones and O. R. Knight's the first part of the week.

S. J. MAY, Editor

### IT MUST BE DONE

On April 26th our Fourth Victory Loan opens. We will be asked to subscribe ONE BILLION ONE HUNDRED MILLION DOLLARS in Victory Bonds. This task is great indeed, but Canada must have money. We have a war to win, and winning the war is the big consideration.

Past efforts in these loans have put the Allies on the Victory Trail. We must keep there with more guns, planes, ammunition, food, clothing and so on. Let us to the task and see that it is finished. When our cash is gone, let us use our credit

and put this loan over as we have the others. The men, in their, in the trenches, in the training camps, in the schools and the millions in shops factories and homes, wherever work is being done for the war are depending on you and me and every other Canadian to put the thing over without fail. IT MUST BE DONE.

### FARMHILL W. I. MEETING

The Farmhill Women's Institute held their regular meeting, which happened to be their third Birthday, at the home of Mrs. Minnie Wilde on April 8th. There were 13 members and 8 visitors present. Roll call was answered by "The Creed from Memory" and 10 members found it necessary to pay the fine imposed for lack of a response.

The Liaison officers report was called for. The War Work Report gave, 2 quilts sent to the Navy League, 45 yards of print donated to Welling Red Cross. Several thousand stamps sent to the LODE and \$42.10 proceeds from the Tea and Apron

Sale. The delegate read her report on the Conference in Calgary. It was decided to hold an auction at each meeting and auction off an article donated by Our guest of honor Mrs. Otto member.

May Lash led in two novel and amusing games then the prettily decorated birthday cake with three burning candles, was brought in and Mrs. Otto blew them out. All then enjoyed a tasty lunch, served by Mrs. Nellie Seward, Mrs. Hilda Razalanie and Mrs. Minnie Wilde. The draw on the Weaner Pig Raffle was won by Mr. Alvin Jones of Raymond.

### NEWS NOTES

The throb of the Tractor is heard on every side as farmers are getting on the land and getting their spring work started. Work is plentiful and every one who wants a job can find one. What the situation will be when beet seed thinning and hoeing is still a question.

Bob McMullin, of the RCAF, son of Mr. and Mrs. W. W. McMullin spent a short leave with his parents and other relatives over the week-end.

Miss S. B. Smith received a letter this week from her son Thurston, who is now stationed in Gibraltar. He reports himself as feeling fine and interested in the famous old rock of history.

A load of coal, a load of pulp and the Town grader were all mixed in soft spots on Broadway Wednesday forenoon and the large Caterpillar of the Municipality was pressed into service to get them out.

The Seventy's party last Friday night was a real enjoyable social, although the storm kept many away, those present had a fine time. After a nice program, Maybelle and Tommy struck up the band and the crowd danced, had hot dogs and pop in between times and all enjoyed themselves. Thanks are due the 2nd Ward Seventy's group and their wives who were hosts for the evening.

WHEN they come home—those boys who are fighting now—make them want to stay home. Make them happy and contented on the farm. They will have new ideas they want to try out. They may want to go in for new breeding stock; new crops; work out a drainage or irrigation project; do a big job of fertilizing. You are wearing out implements and equipment which cannot be replaced now. You may want to erect new buildings, or to add to present buildings. You may wish to modernize your farm with water or electricity. You may want a new motor car—new conveniences and comforts for your home. These things cost money. Save money now and invest your

savings in Victory Bonds. They will provide cash for things you will need when the war ends.

You can buy Victory Bonds for cash in a lump sum; or you can arrange to pay for them in convenient instalments over a period of six months.

Your Victory Bond salesman will be glad to tell you full particulars.

### WHAT IS A VICTORY BOND?

A VICTORY BOND is the promise of the Dominion of Canada to repay in cash the full face value of the Bond at the time stipulated, with half-yearly interest at the rate of 3% per annum until maturity.

A Victory Bond is the safest investment in Canada. The entire resources of the Dominion stand behind it. Canada has been issuing bonds for 75 years, and has never failed to pay every dollar of principal and interest.

A Victory Bond is an asset more readily converted into cash than any other security.

# Buy all the VICTORY BONDS you can

Don't be disappointed this coming season, like many were last season. Now hatching. Send for new colored catalogue and prices.

PROVINCIAL HATCHERIES

Ph. 25734, 10639 — 101st St., EDMONTON, Alta.

from the most severely infested parts of the farm. It must be kept in mind that very severe infestations are difficult to control. If the coarse grains and flax are seeded on all strips in a block containing the most severely infested strips, a very marked and quick decrease can be made of the sawfly population on that farm. When this has been done other methods of control will be more effective.

Many farmers have had experience with infestations which have resulted in a loss of 25 per cent or more of their wheat. Under such conditions it would be wise to reduce the wheat acreage in favour of coarse grains and flax, and by doing so, cut down the sawfly population and its attendant crop hazard.

Part 2, explaining the trap crop method of controlling sawflies, will appear next week.

This letter is contributed by the Dominion Entomological Laboratory, Lethbridge.

## TIME FOR PLANNING THE HOME GARDEN

It's now time to plan the home or community vegetable garden. Insistence of using good clean seed and the rotation of plantings apply with equal force to such a garden as to the farm. It pays to get the best seed possible, and the saving of a few cents in the purchase of seed is not profitable as a rule. One ounce of celery seed may produce 2,000 plants or more; one ounce of tomato seed 1,500 to 2,000 plants; and an ounce of cabbage or cauliflower seed, 1,500 plants or more.

Just as with farm crops, vegetable gardens in the home garden should not be grown on the same plot of ground year after year. Onions may be continued on the same soil for several years, and so may vine crops. With cabbage and turnips, however, rotation is particularly necessary to keep club-root disease in check. It is a good plan to place the vine crops in the centre and place the other vegetables on each side. Generally asparagus and rhubarb and other perennial vegetables are placed at the edge of the garden, allowing sufficient room for cultivation between the edge and the plants.

Out of the FRYING PAN and into the FIRING LINE

## Save ALL WASTE fats &amp; bones

Canada needs and must have every spoonful of fat drippings, every piece of scrap fat and every bone from every kitchen in Canada. Fats make glycerine and glycerine makes high explosives. Bones produce fat. Also glue for war industry. Don't throw away a single drop of used fat—bacon grease, meat drippings, frying fats—every kind you use. They are urgently needed to win this war. Strain all drippings through an ordinary strainer into a clean wide-mouthed can. Save your scrap fat (cooked or uncooked) and all types of bones—cooked, uncooked or dry. When you have collected a pound or more of fat dripping, take it to your meat dealer who will pay you the established price for the dripping and the scrap fat. Or you can dispose of them through any Municipal or Salvage Committee collection system IN EFFECT in your community. Be a munition maker right in your own kitchen. For instance, there is enough explosive power hidden in ten pounds of fat to fire 49 anti-aircraft shells. So—every day, this easy way, keep working for Victory for the duration of the war.

DEPARTMENT OF NATIONAL WAR SERVICES  
NATIONAL SALVAGE DIVISION

## NEWS NOTES

Dob Heggie is quite sick at present having quite a fever at times. His son, Allan, who has been seriously ill for a month is showing steady improvement now.

Mrs. Ab. Hague has completed a course in egg grading and is assisting Mrs. Summers at the local Co-op at the present time. The egg production is heavy and one person cannot keep up to the work.

The 2nd Ward Chapel was cleaned from top to bottom and is greatly improved by last week, and this week the lawns have been cleaned, the flower beds dug and the shrubs and trees pruned. The appearance of the building and grounds is greatly improved by this work, all of which was donated by ward members.

## SAWFLY CONTROL — HAVE YOU FORGOTTEN?

Part 1

Farmers who had serious losses from wheat stem sawfly last season, are not apt to forget. To avoid a repetition of similar losses plans must be made now.

In the late summer and fall when much of the crop is lying on the ground after the sawflies have done their work, many farmers instinctively say to themselves, "We must do something about this next year!" Plans are now being made for seeding this year's crop. Whatever is to be done in controlling sawfly should be planned now. After seeding, it is too late to do anything about it.

It is well known to almost everyone that sawfly does not attack and destroy oats, barley, or flax. Spring and fall rye are attacked but to a much lesser degree than wheat. The demand for coarse grains, oats and barley, will be at least as great as it was in 1942, and this will also probably apply to flax. Any farmer in the sawfly area who is planning to grow these grains should consider how and on what strips to seed these crops so as to reduce the sawfly hazard as much as possible.

As a general rule all parts of a farm are not equally infested, some fields having more severe infestations than others. It would therefore be sound practice to use coarse grains and flax to clear out the sawfly

## FARM MACHINERY OPERATE

YES, Mr. Farmer, you need proper lubrication, too, for no amount of manual effort can make machinery go when breakdowns happen. And, without proper lubrication, there are bound to be breakdowns that will cost you time and money.

To avoid the dangers of wear—to keep your farm equipment operating smoothly and at low cost—see your nearest McColl-Frontenac Representative, as soon as possible. He will supply you with the right farm lubricants to meet your particular needs.

Ask him, especially, about the following:

RED INDIAN MOTOR OIL and  
RED INDIAN AVIATION  
MOTOR OIL

Here are two great oils that will lengthen the life of any engine. They ensure full power and economy under all operating conditions. These finer oils combat acid corrosion, friction, waste and wear. They stand up under highest engine heat... they flow and lubricate the moment the engine starts.

conditions. It is self-sealing and keeps the working lubricant in where it is needed most, prolonging life of bearings and universal joints by keeping out rain, mud and dust.

## URSA X\*\* (CANADA)

The Perfect Motor Oil for Diesel and Heavy-Duty Gasoline Engines.

Highly resistant to the formation of gum, sludge and carbon, Ursa X\*\* (Canada) keeps rings, ring grooves, valves, screens and filters clean. Provides maximum bearing protection. Ensures full power and lower fuel consumption.

TEXACO MARFAK

### APPRECIATION

As I prepare to leave Raymond and our host of friends, made over the past eleven years, may I express my deep appreciation of the friendship, patronage and loyalty of those whom I have been permitted to serve both in the Elevator and also in the Oil business. It has indeed been a pleasant experience and joyful association.

May I also bespeak for those who are following me in these businesses your loyal support, and I feel that they will give you the same service and satisfaction that it has always been my aim to give.

Yours very truly,  
J. F. JUDD

JEAN HINDS

Jean Hinds, women's commentator for the CBC's Prairie Region, is at present touring the Prairie Provinces, and will visit Regina, Saskatoon and Edmonton and Calgary, between April 5th and 20th. Miss Hinds' irrepressible fans in the Prairie Region will appreciate this newly taken photograph. Miss Hinds is heard daily, Mondays thru Fridays at 9:30 a.m. CDT (8:30 a.m. MDT) over CBC Watrous and other western stations. She is an indefatigable worker, who is never satisfied with hearsay evidence, but must see things for herself before talking about them. A person of unfailing good humor and friendliness, Miss Hinds is as well liked in side as outside CBC studios. She is the daughter of a railway man, and a former school teacher in her home town.

#### NEWS NOTES

Mr. and Mrs. Bert Green have purchased the Steve Burman town home in the north end of town and are moving in this week.

Mr. and Mrs. G. F. Summers moved from the Blanche Scoville home Wednesday into the Christensen home next to the Cheese Factory. Mr. and Mrs. Bradley are moving into the Scoville home.

The High School Dance in the Opera House Friday night was disappointed in its Orchestra, which was to come from Lethbridge, and Mose and his recording amplifiers filled in and the students had a nice time despite all.

Gunner Vaughn Taylor returned Wednesday to report to his division headquarters in Vancouver after a leave spent with relatives and friends here. He will be posted to one of Canada's large military camps as instructor in artillery, which line he has specialized in.
